# PRODUCTION

We have been producing for the world with our extremely wide range of product portfolio including non-stick, aluminium at our factory equipped with latest technology in Kahramanmaras, the favourite city of metal kitchenware sector. Thanks to our capability of production exclusive for any segment and quality, we can carry out tailor made production in any amount, thus enhancing the competitive power of our customers in the market.

## Production principles

# CORPORATE

Baki Kitchenware, whose foundation dates back to 1982, started kitchenware production with aluminium tea pots. Since then Baki Cookwares has always invested in technology and become a leading producer in the kitchenware sector. Offering different types of non-stick, aluminium kitchenware products with competitive prices, today Baki Kitchenware exports most of its products to 4 different continents and takes place in the world cuisine. Baki Kitchenware has structured its business model as “production only”. While putting some of its production on the market under its own brands, Baki Kitchenware also offers the rest of its production to world brands by contract manufacturing.

## Baki kitchenware carries out its production based on 6 values

Competitive and Different Products Through Research and Development Investments

Norms Rising Over Honesty

Absolute Customer Satisfaction

Competitive Pricing Policy

Production Capability Suitable For All Sections and Segments

Flexible and Fast Production Plan

Traditional
